Unite Token

Voting based Charity

From each transaction 5% sent directly to the charity wallet.
This amount of UNT token will be transferred during charitising to the new owner voted by the Unite Community.

First goal : 1 000 000 000 000 UNT

The following goal is always double of the previous one.

Unite Token

Voting operation, description

The voting goes online via Unite website

The beginning of every new voting founders offer 3 different topics which can be voted on. Anyone who is a UNT Token owner able to add new topics. The voting takes until we reach the target amount received from transaction expenses in charity fund pot. The state of charity fund will be always on display on our main website, also you can have a look and follow the happenings on the voting site too. As soon as we achieve the target amount the vote is closed. Whoever is in first place (so the winner) will be visited by the founders, and all the collected UniteTokens will given in a paper based wallet to that lucky one within a charity event. **The founders will never give cash or any kind of different means of payment apart from Tokens.** The lucky winner can decide by himself, if he would like to exchange the tokens or growth them. We give a specific instruction only for this. The following vote starts after the first one is closed/done. On our website with a single step, anyone without registration are free to vote. To add a new participant you have to connect your Binance Smart Chain wallet contains UNT tokens to the website. There are no minimum limit tokens required.

With a connection of your wallet the website will check your UNT tokens inside and registering BSC address in to database. **It will never start a transaction by itself.**
